

Mechanical engineer for development of medicinal inhalers at Medicon Village in Lund

Iconovo is hiring a mechanical engineer to further strengthen the full development cycle of medicinal inhalers. You already have experience from product development and innovation. At Iconovo, you will develop inhaled medicines in a project team with pharmaceutical scientists and mechanical engineers. The position is full time and will be based at Iconovo offices at Medicon Village in Lund, Sweden.

The work includes:

- Development, optimization and documentation of robust inhalers, from concept stage to high volume manufacturing.
- Developing 3D models in CAD, mechanical and engineering problem solving, prototyping, testing, documentation etc.
- Setting up design for manufacture and design for assembly of high volume products
- Development of test set-ups and instrumentation
- Tolerance analysis, Structural analysis and Risk analysis
- Working according to relevant ISO standards
- Competence sharing with pharmaceutical scientists and mechanical engineers in the development team

Personal traits:

We are looking for a colleague with a structured and scientific yet creative approach to problem solving, and that has the ability to take ideas from concepts to working prototypes. This holistic view requires some personal traits. One of them is the ability to communicate well, with team members as well as with suppliers and clients worldwide. We value good communication skills in English, both verbal and written.

The applicant should have a M.Sc. in mechanical engineering with relevant experience from designing products. Practical skills will be beneficial since we do prototyping and testing in our own labs. Knowledge and experience from developing products in plastic is essential. Previous experience from medical device / pharmaceutical development is meritorious.

Application:

For specific questions regarding the position or the company, please contact either the VP Operations Mikael Arinder at

mikael.arinder@iconovo.se or by phone +46 (0)761 – 01 57 32, or Director of Pharmaceutical Development Vesna Åkerberg at vesna.akerberg@iconovo.se or by phone +46 (0)702 – 39 44 26.
